- Choose a mount to fit your unique needs and price point

SOLUTIONS FOR MULTIPLE MARKETS

- Corporate/Education/Commercial/Custom Residential/Retail/
Digital Signage/Data Presentation/Entertainment/Hospitality/Exhibits

EASY INSTALLATION FEATURES

- Lift and position displays on mounts/Easy adjustments/Minimal assembly
- Universal Q-Latch™ Mounting System/Stable support/Quick release
- Integrated security

UNCOMPROMISED STRENGTH

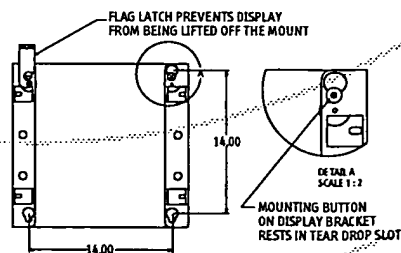

- Exclusive Seismic ratings
- UL listings
- CSA Canada listings

Q-LATCH™

Universal Q-Latch™ Mounting System

Lift and set display on-mount. Mounting buttons on the display bracket latch into teardrop slots on the mount. Four mounting buttons form a universal 14" square pattern, allowing displays to be easily interchanged among most Chief mounts.

Applies to: PDS, PWB, PCM, PUP, PQD, PST, PFC, PTC, POC, PPD, PTS, PPS, PRL, PWR

CHIEF

LARGE FLAT PANEL DISPLAY MOUNTS

UNIVERSAL WALL MOUNTS

UPM

UPM PITCH-ADJUSTABLE WALL MOUNT and USM STATIC WALL MOUNT

- Two mount options fit more than 200 Large Flat Panel Displays:
UPM-1400, UPM-2400 Universal Pitch-Adjustable Wall Mount
USM-1400, USM-2400 Universal Static Wall Mount
- Integrated lateral shift: 2" shift on 1400 model, 4" shift on 2400 model.
- UPM provides Patented Pull-N-Pitch™ Adjustment Control from 0–15 degrees to allow smooth adjustment by hand. Lockdown Pitch for touchscreen use.
- Low Profile. Approximate depth: 2" / 50 mm. Mount remains hidden behind every display, even when using lateral shift.
- Integrated security
- Outstanding benefits for retailers and large dealers/distributors: Easy ordering and simple stocking of wall mounts for multiple display models

CEILING/POLE MOUNTS

PCM Single Ceiling Mount

PCM

- PDC Dual Ceiling Mount option available
- Portrait or landscape display mounting
- Pitch adjustment 5 degrees up, 25 degrees down
- Integrated security
- Outstanding application ideas: digital signage, data presentation, commercial

TPM Pole Mount

TPM

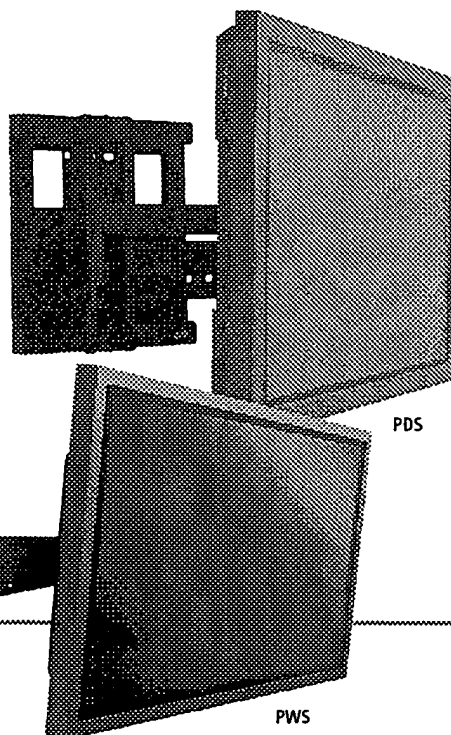

- TPS Truss/Pole Static Mount and TPP Truss Pitch-Adjustable Mount options available
- Five clamp kits available to fit broad range of pole and truss dimensions

- Pitch on gravity-centered axis point +/- 15 degrees, or use pre-set Pitch locking points to easily align multiple displays
- Vertical or horizontal truss installation
- Outstanding application ideas: Rental/staging events, digital signage, data presentation, exhibits

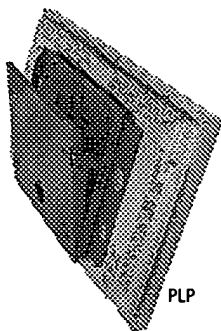

SWING-OUT-ARM WALL MOUNTS

PWS Single Arm Mount PDS Dual Arm Mount

- Allows displays to be recessed into walls or cabinetry for a custom flush appearance
- Provides expansive viewing angles, viewing from multiple rooms and corner mounting
- PWS extends 21" / 533 mm
- PDS extends 33" / 838 mm
- Utilizes Chief's Q-Latch™ Mounting System
- Integrated security
- Outstanding application ideas: custom residential, business, hospitality

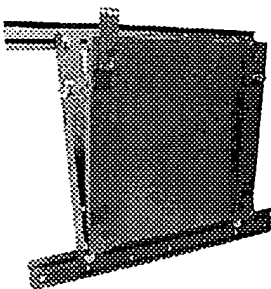

PITCH-ADJUSTABLE WALL MOUNTS

PLP

PLP Low-Profile Pitch-Adjustable Wall Mount

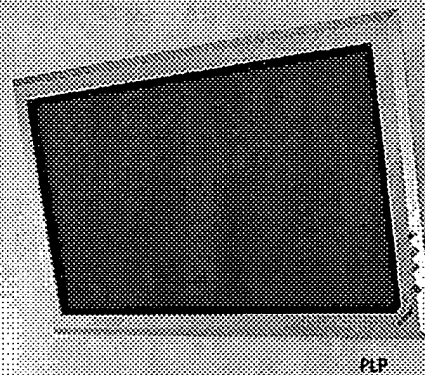

- Patented Pull-N-Pitch™ Adjustment Control from 0–15 degrees allows smooth adjustment by hand
- Approximate depth: 1 3/8" / 33 mm
- Utilizes Chief's Q-Latch™ Mounting System
- Security compatible
- Outstanding application ideas: custom residential, commercial
- Seismic-rated

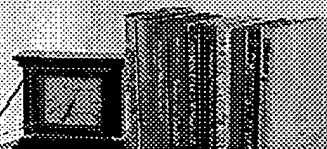

PRO with
PAC-125
Lateral Shift

PRO Pitch-Adjustable Wall Mount

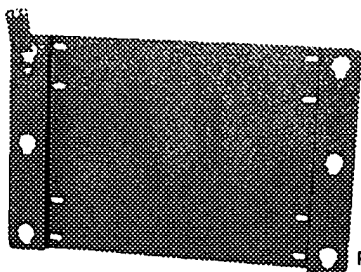

- Pitch adjustment 0–15 degrees. Able to lockdown Pitch.
- Approximate depth: 1 5/8" / 41 mm
- Utilizes Chief's Q-Latch™ Mounting System
- Security compatible
- Outstanding application ideas: commercial, touchscreen applications, exhibits
- Seismic-rated

PLP

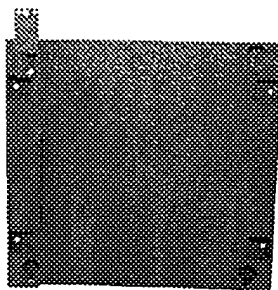

STATIC WALL MOUNTS

PSM

PSM Static Wall Mount

- Industry leader for easy installation — each model attaches directly to a specific display. No interface brackets necessary.
- Most economically priced mount on the market
- Lateral shift compatible
- Landscape mounting only
- Security compatible
- Seismic-rated

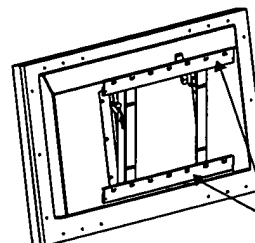

PST

PST Static Wall Mount Portrait/Landscape

- Lowest profile mount available. Holds most displays under 1" / 25 mm from the wall.
- Portrait or landscape display mounting
- Utilizes Chief's Q-Latch™ Mounting System
- Security compatible
- Outstanding application ideas: digital signage, data presentation, exhibits
- Seismic-rated

LATERAL SHIFT

PAC-125

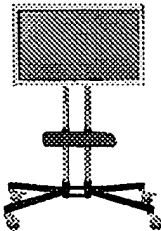

PAC-125 Lateral Shift Accessory

Span a 24" on-center stud system or shift displays 4" on either side of 16" on-center studs. ENS Lateral Shift Extrusion is also available for forming video walls.

Applies to: LHM/EPM, PLP, PRO, PSM, PST

CARTS/STANDS/LIFTS

PTC Mobile Cart

Make displays mobile for business and video conferencing applications. The PTC provides Roll and Pitch adjustments and infinite height adjustability along sleek chrome posts.

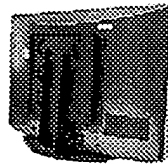

PPC Presenters Cart

Enhance presentations and video conferencing. The PPC includes a streamline shape that eliminates trip hazards and provides height adjustability for customization.

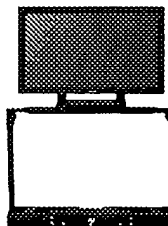

PFS Floor Stand

A functional solution for video conferencing, booth exhibits and business applications. The PFS incorporates a flat base that allows easy traffic flow around the display.

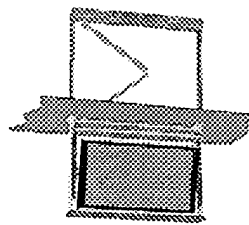

PTS Table Stand

A sturdy stand for video conferencing, residential and commercial applications. The PTS provides stable support that prevents slipping and table scratching.

PUL "Pop-Up" Lift

A smooth, quiet way to conceal/reveal displays in home and business applications. The PUL has multiple models with adjustable travel limits up to 57" / 1447 mm.

PCL Electric Ceiling Lift

Electrically raises/lowers displays in residential and commercial applications. The PCL features adjustable travel distances up to 51" / 1295 mm and Auto-Tilt™ adjustment up to 15 degrees.

PRO Pitch-Adjustable Wall Mount [back](#)

Rigid tilt adjustment, a UL listing and a seismic rating make the PRO a rock-solid solution for public displays and touchscreen applications. The PRO provides versatility at a solid price point. Easily customize your PRO solution to fit your application by adding on any of the multiple accessories.

[Click here for the Chief PRO Series Catalog »](#)

Key Features Include:

- The best solution for retail displays and digital signage where rigid adjustment is required
- Exclusive Q-Latch™ Mounting System secures the Large Display with a lockable latch
- Low profile – 1 5/8" standard mount depth
- UL listed for proven strength
- Seismic rated for safer installations
- Sturdy steel construction: wall mount uses more surface area for balance and stability
- Quick, simple installation
- Bolt-adjusted pitch
- Rigidity for touchscreen compatibility
- Easy display removal for servicing, or rotating
- Display installs in portrait/landscape views
- Multiple accessories provide solutions for even the most demanding installation
- Lateral shift capabilities with PAC-125 accessory
- Compatible with locking flag accessories (PAC-130, PAC-135)
- Interface brackets are compatible with all other 2000 Series displays
